Grade 2 Art

Unit 3: Texture and Form

Overview: In this unit of study, students will think both critically and creatively through visual art. Students will demonstrate proficiency in identifying elements of art and principles of design with an emphasis on texture and form. They will identify texture in artwork and decide if it is real (actual) or implied and identify characteristics of matte, shiny, smooth, rough, bumpy, and prickly textures. Students will also differentiate between two and three-dimensional shapes.

Some things feel just as they appear; this is called actual texture. Some things look like they are rough but are smooth, which is called implied texture 	<ul style="list-style-type: none"> • How does an artist convey texture? How does that help the viewer experience the piece? • How does an artist use forms to help connect the viewer to his subject? • How can you use form and texture in your own artwork?
<p><i>Unit 3: Enduring Understandings</i></p>	<ul style="list-style-type: none"> • Students will be able to create two- dimensional and three-dimensional works of art and explain what makes their characteristics unique. • Students will be able to identify texture in artwork and decide if it is real (actual) or implied. • Students will identify characteristics of actual texture: matte, shiny, smooth, rough, bumpy, and prickly textures. • Students will be able to create artwork that uses actual texture and/or implied texture. • Students will be able to apply the use of art vocabulary to describe texture and form in art through poetry. • Students will be able to create a piece of art that evokes a story based upon its’ texture.

Enduring Understanding	Indicator #	Indicator
People evaluate art based on various criteria.	1.5.2.R3a	Use art vocabulary to explain preferences in selecting and classifying artwork.
Creativity and innovative thinking are essential life skills that can be developed. Artists and designers shape artistic investigations, following or breaking with traditions in pursuit of creative art-making goals.	1.5.2.Cr1a	Engage in individual and collaborative exploration of materials and ideas through multiple approaches, from imaginative play to brainstorming, to solve art and design problems.
	1.5.2.Cr1b	Engage in individual and collaborative art making through observation and investigation of the world, and in response to personal interests and curiosity.
Artists and designers experiment with forms, structures, materials, concepts, media, and art-making approaches. Artists and designers balance experimentation and safety, freedom and responsibility, while developing and creating artworks. People create and interact with objects, places and design that define, shape, enhance, and empower their lives.	1.5.2.Cr2a	Through experimentation, build skills and knowledge of materials and tools through various approaches to art making.
	1.5.2.Cr2b	Demonstrate safe procedures for using and cleaning art tools, equipment and studio spaces.
	1.5.2.Cr2c	Create art that represents natural and constructed environments. Identify and classify uses of everyday objects through drawings, diagrams, sculptures or other visual means including repurposing objects to make something new.
People develop ideas and understandings of society, culture and history through their interactions with and analysis of art.	1.5.2.Cn11a	Compare, contrast and describe why people from different places and times make art.

• Assessment Plan

- Class discussions
- Independent & group work/projects
- Benchmark assessments
- Teacher Observations
- Performance Tasks

- [Texture and the World Around You](#): Students see, touch, and understand how to draw, paint and produce textures on any art project.
- Texture identification activity
- Discussion about form and texture
- Original artwork demonstrating texture
- Students will create a poem that uses words that describe the textures they used in their work of art to tell a story.

Resources

- Chromebooks
- Group discussions
- Manipulatives
- SMARTboard / Mimio Technology
- Google Applications (Documents, Forms, Spreadsheets, Presentation)
- [Projects](#)
- <https://kinderart.com/>

Activities

- [Calder's Mobile](#): Students will discuss the different art media and mediums that emphasizes the varying forms and then create their own mobile.
- [Cake Counter Project](#): Students will create an ice cream cone using various types of texture similar.
- Cut-paper Collages: Students will take cut or torn paper collages to reinforce a tactile/kinesthetic relationship to texture and form. Subject matter can range from a self-portrait to a still life, or an interpretation of a masterwork by a great artist such as Henri Matisse.

Modifications for Special Education/504

Students with special needs: The students' needs will be addressed on an individual and grade level using a variety of modalities.

Accommodations will be made for those students who need extra time to complete assignment. Support staff will be available to aid students related to IEP specifications. 504 accommodations will also be attended to by all instructional leaders. Physical expectations and modifications, alternative assessments, and scaffolding strategies will be used to support this learning. The use of Universal Design for Learning (UDL) will be considered for all students as teaching strategies are considered.

- Small group instruction
- Audio books/ Text-to-speech platforms
- Leveled texts/Vocabulary Readers
- Leveled informational texts via online
- Modeling and guided practice
- Read directions aloud
- Repeat, rephrase and clarify directions
- Extended time as needed
- Break down assignments into smaller units
- Provide shortened assignments
- Modify testing format
- Repeat directions as needed
- Graphic organizers
- Study Guides, Study Aids and Re teaching as needed

Modifications for At-Risk Students

Formative and summative data will be used to monitor student success. At first signs of failure, student work will be reviewed to determine support. This may include parent consultation, basic skills review and differentiation strategies. With considerations to UDL, time may be a factor in overcoming developmental considerations

Interdisciplinary Connections

Interdisciplinary Connections:

ELA Standards:

NJSLS.RI.2.7. Distinguish between information provided by pictures or other illustrations and information provided by the words in a text.

NJSLSA.SL1. Prepare for and participate effectively in a range of conversations and collaborations with diverse partners, building on others' ideas and expressing their own clearly and persuasively.

NJSLSA.SL2. Integrate and evaluate information presented in diverse media and formats, including visually, quantitatively, and orally.

NJSLSA.L3. Apply knowledge of language to understand how language functions in different contexts, to make effective choices for meaning or style, and to comprehend more fully when reading or listening.

NJSLSA.L6. Acquire and use accurately a range of general academic and domain-specific words and phrases sufficient for reading, writing, speaking, and listening at the college and career readiness level; demonstrate independence in gathering vocabulary knowledge when encountering an unknown term important to comprehension or expression.

Social Studies Standards:

6.1.2.Geo.HE.2: Describe how human activities affect the culture and environmental characteristics of places or regions (e.g., transportation, housing, dietary needs)

Math Standards:

M.1.GMD.C. Represent and interpret data.

M.1.G.A. Reason with shapes and their attributes.

Science Standards:

K-2-ETS1-2 Develop a simple sketch, drawing, or physical model to illustrate how the shape of an object helps it function as needed to solve a given problem.

Integration of Computer Science and Design Thinking NJSLS 8

8.1.2.CS.1: Select and operate computing devices that perform a variety of tasks accurately and quickly based on user needs and preferences.

8.1.2.DA.1: Collect and present data, including climate change data, in various visual formats.

8.1.2.DA.2: Store, copy, search, retrieve, modify, and delete data using a computing device.
