Overview: In this unit we will be learning what an Ostinato is in music. The students will not only learn to define and recognize ostinatos in music, they will also learn how to perform them through various mediums i.e. vocal repetition, unpitched instruments, pitched instruments. Students will also learn about Clave rhythms and understand the role that they play in Latin music. Students will reinforce their understanding of these concepts by accompanying their singing voices on instruments such as claves, boomwhackers, and Orff instruments.

Overview	Standards for	Unit Focus	Essential Questions

Singing While Playing Ostinatos on	notation. 1.3A.5.Pr4b Demonstrate an understanding of the structure and expanded music concepts (e.g., rhythm, pitch, form, harmony) in music selected for performance.			
Pitched Instruments	1.3A.5.Pr6a	Perform music, alone or with others, with expression, technical accuracy and appropriate interpretation.	2	4
1.3A.5.Pr5b Rehearse to refine technical accuracy and expressive que challenges and show improvement over time.		Rehearse to refine technical accuracy and expressive qualities to address challenges and show improvement over time.		
	1.3A.5.Cr2a	Demonstrate developed musical ideas for improvisations, arrangements or compositions to express intent. Explain connection to purpose and context.		
	Assessment, Re-teach and Extension		1	

Unit 2 Grade 3			
Enduring Understanding	Indicator #	Performance Expectations	
Musicians' creative choices are influenced by their expertise, context, and expressive intent.	1.3A.5.Cr2a	Demonstrate developed musical ideas for improvisations, arrangements or compositions to express intent. Explain connection to purpose and context.	
Performers' interest in and knowledge of musical works, understanding of their own technical skill, and the context for a performance influence the selection of repertoire.	1.3A.5.Pr4b	Demonstrate an understanding of the structure and expanded music concepts (e.g., rhythm, pitch, form, harmony) in music selected for performance.	
Performers' interest in and knowledge of musical works, understanding of their own technical skill, and the context for a performance influence the selection of repertoire.	1.3A.5.Pr4c	Analyze selected music by reading and performing using standard notation.	
To express their musical ideas, musicians analyze, evaluate and refine their performance over time through openness to new ideas, persistence and the application of appropriate criteria.	1.3A.5.Pr5b	Rehearse to refine technical accuracy and expressive qualities to address challenges and show improvement over time.	
Musicians judge performance based on criteria that vary across time, place and cultures. The context and how a work is presented influence audience response.	1.3A.5.Pr6a	Perform music, alone or with others, with expression, technical accuracy and appropriate interpretation.

Modifications for Special Education/504

Students with special needs: The students' needs will be addressed on an individual and grade level using a variety of modalities. Accommodations will be made for those students who need extra time to complete assignment. Support staff will be available to aid students related to IEP specifications. 504 accommodations will also be attended to by all instructional leaders. Physical expectations and modifications, alternative assessments, and scaffolding strategies will be used to support this learning. The use of Universal Design for Learning (UDL) will be considered for all students as teaching strategies are considered.

- Small group instruction
- Peer helpers
- Modeling and guided practice
- Read directions aloud
- Repeat, rephrase and clarify directions
- Extended time as needed
- Break down assignments into smaller units
- Provide shortened assignments
- Modify testing format
- Repeat directions as needed
- Study Guides, Study Aids and Re teaching as needed

Modifications for At-Risk Students

Formative and summative data will be used to monitor student success. At first signs of failure, student work will be reviewed to determine support. This may include parent consultation, basic skills review and differentiation strategies. With considerations to UDL, time may be a factor in overcoming developmental considerations

- Extended time as needed
- Read directions aloud
- Assist with organization
- Emphasize/highlight key concepts
- Recognize success
- Provide timelines for work completion
- Break down multi-step tasks into smaller chunks

English Language Learners	Modifications for Gifted Students
All WIDA Can Do Descriptors can be found at this link: https://wida.wisc.edu/teach/can-do/descriptors Grades 2-3 WIDA Can Do Descriptors: Listening Speaking Reading Writing Oral Language Students will be provided with accommodations and modifications that may include: Relate to and identify commonalities in music from student's native culture Assist with organization Emphasize/highlight key concepts Teacher Modeling Peer Modeling Label Classroom Materials - Word Walls	 Students excelling in mastery of standards will be challenged with complex, high level challenges related to the topic. Raise levels of intellectual demands Require higher order thinking, communication, and leadership skills Differentiate content, process, or product according to student's readiness, interests, and/or learning styles Provide higher level tasks Expand use of open-ended, abstract questions Critical and creative thinking activities that provide an emphasis on research and in-depth study Enrichment Activities/Project-Based Learning/ Independent Study Additional Strategies may be located at the links: Gifted Programming Standards Webb's Depth of Knowledge Levels and/or Revised Bloom's Taxonomy REVISED Bloom's Taxonomy Action Verbs

Interdisciplinary Connections

Interdisciplinary Connections:

NJSLSA.R1. Read closely to determine what the text says explicitly and to make logical inferences and relevant connections from it; cite specific textual evidence when writing or speaking to support conclusions drawn from the text.

NJSLSA.R4. Interpret words and phrases as they are used in a text, including determining technical, connotative, and figurative meanings, and analyze how specific word choices shape meaning or tone.

NJSLSA.R7. Integrate and evaluate content presented in diverse media and formats, including visually and quantitatively, as well as in words.

NJSLSA.W2. Write informative/explanatory texts to examine and convey complex ideas and information clearly and accurately through the effective selection, organization, and analysis of content.

NJSLSA.W3. Write narratives to develop real or imagined experiences or events using effective technique, well-chosen details, and well-structured event sequences.

NJSLSA.W7. Conduct short as well as more sustained research projects, utilizing an inquiry-based research process, based on focused questions, demonstrating understanding of the subject under investigation.

NJSLSA.SL1. Prepare for and participate effectively in a range of conversations and collaborations with diverse partners, building on others' ideas and expressing their own clearly and persuasively.

4.MD.1. Know relative sizes of measurement units within one system of units including km, m, cm; kg, g; lb, oz.; l, ml; hr, min, sec. Within a single system of measurement, express measurements in a larger unit in terms of a smaller unit. Record measurement equivalents in a two-column table.

Integration of Computer Science and Design Thinking NJSLS 3

8.1.5.CS.1: Model how computing devices connect to other components to form a system

8.1.5.DA.1: Collect, organize, and display data in order to highlight relationships or support a claim.

8.2.5.ED.3: Follow step by step directions to assemble a product or solve a problem, using appropriate tools to accomplish the task.
