Overview: In this unit we will establish the various different ways that we use our voices on a daily basis. We will discuss the differences between a proper singing voice and a speaking/shouting voice. We will then begin discussing the differences between long and short sounds in music. Students will make associations between different instruments in the classroom that make long and short sounds based on note decay. Students will learn how to vocally produce music using short staccato phrases and long legato phrases. Students will complete unit being able to perform a long, short rhythm on unpitched percussion.

Overview	Standards for Musical Content	Unit Focus	Essential Questions
Unit 2 Different forms of vocalizing/Long and Short sounds	1.3A.2.Cr1a 1.3A.2.Cr2a 1.3A.2.Cr2b 1.3A.2.Pr4a 1.3A.2.Pr5c 1.3A.2.Pr5d 1.3A.2.Pr6a 1.3A.2.Re8a 1.3A.2.Re8a 1.3A.2.Cn11a	 Understand the differences between a singing, shouting, and speaking voice. Singing in unison Recognize which instruments create long sounds and which create short sounds. Be able to perform short repeating rhythms with body percussion and unpitched instruments. Play (Long short short) rhythm using various hand percussion instruments 	 What is the difference between a singing voice and speaking voice? What is the difference between a singing voice and a shouting voice? Which instruments make long sounds? Which instruments make short
Unit 2: Enduring Understandings	 Recognizing difference Incorporating both 1 	n many different ways for many different reasons ent sound sources in music and environment long and short sounds using body percussion and eurhythmics /thmic accompaniment	 sounds? How can we tell the difference between long sounds and short sounds in music?

Modifications for Special Education/504

Students with special needs: The students' needs will be addressed on an individual and grade level using a variety of modalities. Accommodations will be made for those students who need extra time to complete assignment. Support staff will be available to aid students related to IEP specifications. 504 accommodations will also be attended to by all instructional leaders. Physical expectations and modifications, alternative assessments, and scaffolding strategies will be used to support this learning. The use of Universal Design for Learning (UDL) will be considered for all students as teaching strategies are considered.

- Small group instruction
- Peer helpers
- Modeling and guided practice
- Read directions aloud
- Repeat, rephrase and clarify directions
- Extended time as needed
- Break down assignments into smaller units
- Provide shortened assignments
- Modify testing format
- Repeat directions as needed
- Study Guides, Study Aids and Re teaching as needed

Modifications for At-Risk Students

Formative and summative data will be used to monitor student success. At first signs of failure, student work will be reviewed to determine support. This may include parent consultation, basic skills review and differentiation strategies. With considerations to UDL, time may be a factor in overcoming developmental considerations

- Extended time as needed
- Read directions aloud
- Assist with organization
- Emphasize/highlight key concepts
- Recognize success
- Provide timelines for work completion
- Break down multi-step tasks into smaller chunks

English Language Learners	Modifications for Gifted Students
All WIDA Can Do Descriptors can be found at this link: https://wida.wisc.edu/teach/can-do/descriptors Grades 2-3 WIDA Can Do Descriptors: Listening Speaking Reading Writing Oral Language Students will be provided with accommodations and modifications that may include: Relate to and identify commonalities in music from student's native culture Assist with organization Emphasize/highlight key concepts Teacher Modeling Peer Modeling Label Classroom Materials - Word Walls	 Students excelling in mastery of standards will be challenged with complex, high level challenges related to the topic. Raise levels of intellectual demands Require higher order thinking, communication, and leadership skills Differentiate content, process, or product according to student's readiness, interests, and/or learning styles Provide higher level tasks Expand use of open-ended, abstract questions Critical and creative thinking activities that provide an emphasis on research and in-depth study Enrichment Activities/Project-Based Learning/ Independent Study Additional Strategies may be located at the links: Gifted Programming Standards Webb's Depth of Knowledge Levels and/or Revised Bloom's Taxonomy REVISED Bloom's Taxonomy Action Verbs

Interdisciplinary Connections

Interdisciplinary Connections:

NJSLSA.R1. Read closely to determine what the text says explicitly and to make logical inferences and relevant connections from it; cite specific textual evidence when writing or speaking to support conclusions drawn from the text.

NJSLSA.R4. Interpret words and phrases as they are used in a text, including determining technical, connotative, and figurative meanings, and analyze how specific word choices shape meaning or tone.

NJSLSA.R7. Integrate and evaluate content presented in diverse media and formats, including visually and quantitatively, as well as in words.

NJSLSA.W2. Write informative/explanatory texts to examine and convey complex ideas and information clearly and accurately through the effective selection, organization, and analysis of content.

NJSLSA.W3. Write narratives to develop real or imagined experiences or events using effective technique, well-chosen details, and well-structured event sequences.

NJSLSA.W7. Conduct short as well as more sustained research projects, utilizing an inquiry-based research process, based on focused questions, demonstrating understanding of the subject under investigation.

NJSLSA.SL1. Prepare for and participate effectively in a range of conversations and collaborations with diverse partners, building on others' ideas and expressing their own clearly and persuasively.

4.MD.1. Know relative sizes of measurement units within one system of units including km, m, cm; kg, g; lb, oz.; l, ml; hr, min, sec. Within a single system of measurement, express measurements in a larger unit in terms of a smaller unit. Record measurement equivalents in a two-column table.

Integration of Computer Science and Design Thinking NJSLS 2

8.1.2.CS.1: Select and operate computing devices that perform a variety of tasks accurately and quickly based on user needs and preferences.

8.1.2.DA.1: Collect and present data, including climate change data, in various visual formats.

8.2.2.ED.3: Select and use appropriate tools and materials to build a product using the design process.
