

Winslow Township School District
9-12 Introduction to CAD: Computer Aided Drafting
Unit 1: Reading a Scale & Drawing to Scale

Overview: In this unit, students will be introduced to the concept of scale drawing

Overview	Standards	Unit Focus	Essential Questions
<p><u>Unit 1</u></p> <p>Reading a Scale & Drawing to Scale</p>	<ul style="list-style-type: none"> • 8.1.12.CS.2 • 8.1.12.CS.3 • 8.1.12.DA.2 • 8.2.12.ED.2 • 8.2.12.ITH.3 • 8.2.12.NT.2 • 9.3.12.AC.1 • 9.3.12.AC-DES.6 	<ul style="list-style-type: none"> • Identify the unit systems on a scale. • Demonstrate an understanding of how to read a scale. • Students will draw lines and objects manually using a scale. • Students will ascertain object measurements through the use of a scale. • Students will draw and print lines and objects to scale using Autodesk's AutoCAD. • Compare and contrast the concept of drawing to scale using the DIMSCALE command versus using the SCALE command. 	<ul style="list-style-type: none"> • What is the difference between a using a scale, drawing to scale and scaling an object? • Why do we still use scales even though we have computers to create drawings? • Why are there so many different scale measurement systems to choose from? • What is the proper way to read a scale & draw using a scale? • How can we best attain measurements off of a blueprint?
<p><i>Unit 1: Enduring Understandings</i></p>	<ul style="list-style-type: none"> • Reading construction documents & drawing using a scale has been used for hundreds of years before the advent of CAD. • Scales are used to read and measure off of existing printed drawings/blueprints. They are only used to create hash marks manually. • Drafting is a global language using different unit systems such as architectural, engineering and metrics. AutoCAD can accommodate multiple systems and languages. • The selection of which drawing scale to use is dependent upon the size and scope of a project. • Scales are set up having inches on either ends that increase away from the scale. Feet measurements increase towards the center of the scale.

9-12 Introduction to CAD: Computer Aided Drafting
Unit 1: Reading a Scale & Drawing to Scale

Curriculum Unit 1	Standards		Pacing	
			Days	Unit Days
Unit 1: Reading a Scale & Drawing to Scale	8.1.12.CS.2	Model interactions between application software, system software, and hardware.	4	34
	8.1.12.CS.3	Compare the functions of application software, system software, and hardware.	2	
	8.1.12.DA.2	Describe the trade-offs in how and where data is organized and stored.	4	
	8.2.12.ED.2	Create scaled engineering drawings for a new product or system and make modification to increase optimization based on feedback.	4	
	8.2.12.ITH.3	Analyze the impact that globalization, social media, and access to open source technologies has had on innovation and on a society's economy, politics, and culture.	4	
	8.2.12.NT.2	Redesign an existing product to improve form or function.	3	
	9.3.12.AC.1	Use vocabulary, symbols and formulas common to architecture and construction.	5	
	9.3.12.AC-DES.6	Apply the techniques and skills of modern drafting, design, engineering and construction to projects.	6	
	Assessment, Re-teach and Extension			

Winslow Township School District
9-12 Introduction to CAD: Computer Aided Drafting
Unit 1: Reading a Scale & Drawing to Scale

Unit 1 Grade 9-12		
Enduring Understanding	Indicator #	Performance Expectation
A computing system involves interaction among the user, hardware, application software, and system software.	8.1.12.CS.2	Model interactions between application software, system software, and hardware.
A computing system involves interaction among the user, hardware, application software, and system software.	8.1.12.CS.3	Compare the functions of application software, system software, and hardware.
Choices individuals make about how and where data is organized and stored affects cost, speed, reliability, accessibility, privacy, and integrity.	8.1.12.DA.2	Describe the trade-offs in how and where data is organized and stored.
Engineering design is a complex process in which creativity, content knowledge, research, and analysis are used to address local and global problems.	8.2.12.ED.2	Create scaled engineering drawings for a new product or system and make modification to increase optimization based on feedback.
Changes caused by the introduction and use of a new technology can range from gradual to rapid and from subtle to obvious, and can change over time. These changes may vary from society to society as a result of differences in a society's economy, politics, and culture.	8.2.12.ITH.3	Analyze the impact that globalization, social media, and access to open source technologies has had on innovation and on a society's economy, politics, and culture.
Technology, product, or system redesign can be more difficult than the original design.	8.2.12.NT.2	Redesign an existing product to improve form or function.

Unit 1: Reading a Scale & Drawing to Scale

	9.3.12.AC.1	Use vocabulary, symbols and formulas common to architecture and construction.
	9.3.12.AC-DES.6	Apply the techniques and skills of modern drafting, design, engineering and construction to projects.

Winslow Township School District
9-12 Introduction to CAD: Computer Aided Drafting
Unit 1: Reading a Scale & Drawing to Scale

Unit 1 Grade 9-12

Assessment Plan

Teacher Created Formative Assessments

- Terminology Quizzes.
- Design Projects.
- Tutorial exercises and packets
- Pre-planning bubble diagrams

Teacher Created Summative Assessments

- End of Unit Exams.
- Mid-term Exams.
- Final Exams
- Portfolio Review

Alternative Assessments:

- Group Critiques of student work consisting of round robin style class discussions.
- Conduct short research projects on construction documentation as well as master architects/engineers including analysis and reflection.
- Observe online master videos and teacher created power points of CAD methods and techniques followed by round robin style group discussion.
- Flash card “buzz” word review presented in a game show style.

9-12 Introduction to CAD: Computer Aided Drafting
Unit 1: Reading a Scale & Drawing to Scale

Resources	Activities
<p>Textbooks:</p> <p>Kicklighter & Thomas, <i>Architecture: Residential Drafting & Design</i>, Goodheart- Wilcox, 12th edition.</p> <p>French & Hesel, <i>Mechanical Drawing: Board and CAD Techniques, Student Edition</i>, McGraw-Hill Education, 13th edition.</p> <p>Digital Imaging Software:</p> <ul style="list-style-type: none"> ○ AutoDesk: AutoCAD <p>Other Software:</p> <ul style="list-style-type: none"> • G Suite (Classroom, Slides, Docs, Sheets) • Microsoft Office (Word, Power Point) • Internet Browsers (Chrome, Safari) • PC Browsers (Finder, Explorer) <p>• Diversity, Equity & Inclusion Educational Resources https://www.nj.gov/education/standards/dei/</p>	<ul style="list-style-type: none"> • The teacher will demonstrate and discuss how to navigate through file browsers (Finder, Bridge, Explorer, etc.) and Google Classroom. • Teacher will demonstrate and introduce the parts of the screen and industry terminology including vector type software. • Examine the history of manual drafting tools & draw lines using them. • Students will create and maintain a "Command Notebook" listing new commands used in each project. It lists the command, its function and how to access it through the user interface. • Students are to complete tutorial “packets” demonstrating basic software tools and functions. • Students will draw a stop sign using the Cartesian coordinate method. • Students will manually draw 2D and 3D geometric constructions.

Instructional Best Practices and Exemplars	
1. Identifying similarities and differences 2. Summarizing and note taking 3. Reinforcing effort and providing recognition 4. Homework and practice 5. Nonlinguistic representations	6. Cooperative learning 7. Setting objectives and providing feedback 8. Generating and testing hypotheses 9. Cues, questions, and advance organizers 10. Manage response rates
9.1 Personal Financial Literacy, 9.2 Career Awareness, Exploration, Preparation and Training, 9.3 21 st Century Life and Careers & 9.4 Life Literacies and Key Skills	
<p>9.2.12.CAP.3 Investigate how continuing education contributes to one's career and personal growth.</p> <p>9.2.12.CAP.4 Evaluate different careers and develop various plans (e.g., costs of public, private, training schools) and timetables for achieving them, including educational/training requirements, costs, loans, and debt repayment.</p> <p>9.2.12.CAP.6 Identify transferable skills in career choices and design alternative career plans based on those skills</p> <p>9.2.12.CAP.10 Identify strategies for reducing overall costs of postsecondary education (e.g., tuition assistance, loans, grants, scholarships, and student loans).</p> <p>9.3.12.AR.6 Evaluate technological advancements and tools that are essential to occupations within the Arts, A/V Technology & Communications Career Cluster.</p> <p>9.3.12.AR-VIS.1 Describe the history and evolution of the visual arts and its role in and impact on society.</p> <p>9.3.12.AC.1 Use vocabulary, symbols and formulas common to architecture and construction</p> <p>9.3.12.AC-DES.6 Apply the techniques and skills of modern drafting, design, engineering and construction to projects.</p> <p>9.4.12.CI.1 Demonstrate the ability to reflect, analyze, and use creative skills and ideas (e.g., 1.1.12prof.CR3a).</p> <p>9.4.12.CT.1 Identify problem-solving strategies used in the development of an innovative product or practice (e.g., 1.1.12acc.C1b, 2.2.12.PF.3).</p> <p>9.4.12.DC.1 Explain the beneficial and harmful effects that intellectual property laws can have on the creation and sharing of content (e.g., 6.1.12.CivicsPR.16.a).</p> <p>9.4.12.DC.4</p>

9-12 Introduction to CAD: Computer Aided Drafting
Unit 1: Reading a Scale & Drawing to Scale

Explain the privacy concerns related to the collection of data (e.g., cookies) and generation of data through automated processes that may not be evident to users (e.g., 8.1.12.NI.3).

9.4.12.IML.1

Compare search browsers and recognize features that allow for filtering of information.

9.4.12.TL.1

Assess digital tools based on features such as accessibility options, capacities, and utility for accomplishing a specified task (e.g., W.11-12.6.).

The implementation of the 21st Century skills and standards for students of the Winslow Township District is infused in an interdisciplinary format in a variety of curriculum areas that include, English language Arts, Mathematics, School Guidance, Social Studies, Technology, Visual and Performing Arts, Science, Physical Education and Health, and World Language.

Modifications for Special Education/504

Students with special needs: The students' needs will be addressed on an individual and grade level using a variety of modalities.

Accommodations will be made for those students who need extra time to complete assignment. Support staff will be available to aid students related to IEP specifications. 504 accommodations will also be attended to by all instructional leaders. Physical expectations and modifications, alternative assessments, and scaffolding strategies will be used to support this learning. The use of Universal Design for Learning (UDL) will be considered for all students as teaching strategies are considered.

- Small group instruction and demonstration
- Electronic, printed and verbal instruction
- One-on-one demonstration
- Leveled informational texts and videos via online
- Modeling and guided practice
- Read directions aloud
- Repeat, rephrase and clarify directions
- Extended time as needed
- Break down assignments into smaller units
- Provide shortened assignments
- Modify testing format
- Preferential seating
- Graphic organizers
- Study guides, study aids and re-teaching as needed

Winslow Township School District
9-12 Introduction to CAD: Computer Aided Drafting
Unit 1: Reading a Scale & Drawing to Scale

Modifications for At-Risk Students

Formative and summative data will be used to monitor student success. At first signs of failure, student work will be reviewed to determine support. This may include parent consultation, basic skills review and differentiation strategies. With considerations to UDL, time may be a factor in overcoming developmental considerations. More time will be made available with a certified instructor to aid students in reaching the standards.

- Contact parents, guidance & child study if students are in danger of failing.
- Provide an assignment sheet with step-by-step instructions as well as specifications for each project.
- Provide design templates.
- Provide study guides.
- Provide extended time for written assessments.
- Extended time as needed
- Read directions aloud
- Assist with organization
- Use of computer to create, edit and store student work.
- Emphasize/highlight key concepts
- Recognize success
- Provide timelines for work completion
- Break down multi-step tasks into smaller chunks
- Provide copy of class notes and graphic organizer

Interdisciplinary Connections

ELA

NJSLSA.SL1 Prepare for and participate effectively in a range of conversations and collaborations with diverse partners, building on others' ideas and expressing their own clearly and persuasively.

NJSLSA.SL2 Integrate and evaluate information presented in diverse media and formats, including visually, quantitatively, and orally.

NJSLSA.R7. Integrate and evaluate content presented in diverse media and formats, including visually and quantitatively, as well as in words.

NJSLSA.R10. Read and comprehend complex literary and informational texts independently and proficiently with scaffolding as needed.

NJSLSA.W4. Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience

RI.9-10.1 Accurately cite strong and thorough textual evidence, (e.g., via discussion, written response, etc.) and make relevant connections, to support analysis of what the text says explicitly as well as inferentially, including determining where the text leaves matters uncertain.

RI.9-10.2 Determine a central idea of a text and analyze how it is developed and refined by specific details; provide an objective summary of the text.

W.9-10.6 Use technology, including the Internet, to produce, share, and update individual or shared writing products, taking advantage of technology's capacity to link to other information and to display information flexibly and dynamically.

SL.9-10.5 Make strategic use of digital media (e.g., textual, graphical, audio, visual, and interactive elements) in presentations to enhance findings, reasoning, and evidence and to add interest.

SL.9-10.6 Adapt speech to a variety of contexts and tasks, demonstrating command of formal English.

RI.11-12.1 Accurately cite strong and thorough textual evidence, (e.g., via discussion, written response, etc.), to support analysis of what the text says explicitly as well as inferentially, including determining where the text leaves matters uncertain.

RI.11-12.2 Determine two or more central ideas of a text, and analyze their development and how they interact to provide a complex analysis; provide an objective summary of the text.
