**Overview: Summary: Personal and Public Identities**

How do language and culture influence my identity?

This instruction must include science, social studies and technology, as well as College and Career readiness, by utilizing the NJ Student Learning Standards as mandated by the New Jersey Department of Education. Technology is integrated into instruction in meaningful ways. Students and teachers use digital tools and information to solve problems individually and collaboratively to create and communicate knowledge.

Resources and activities found on the Technology Resource Page provide a variety of differentiated learning opportunities to meet the needs of individual students. Activities range in levels outside of grade level to meet the academic needs and learning styles of all students. All lessons are differentiated to accommodate classified, ESL, and advanced students.

Accommodations/modifications as per IEP and 504 Plans will be implemented. Enrichment activities designed to challenge the more advanced students include independent study and project-based learning through active exploration of real-world challenges and problems. These activities are detailed in the Teachers' Editions.
